The financial statements have been prepared and presented under the historical cost convention, on the accrual basis of accounting, in accordance with the provisions of the Companies Act, 2013, and accounting principles generally accepted in India ('Indian GAAP') and comply with the accounting standards notified under the relevant provisions of the Act. The financial statements are presented in Indian Rupees, except where mentioned otherwise.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act 2013. The Company has identified its operating cycle as twelve months.

1.2 Use of estimates

The preparation of the financial statements in conformity with Indian GAAP requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Management believes that the estimates and assumptions made in the preparation of financial statements are prudent and reasonable. Actual results may differ from the estimates used in preparing the accompanying financial statements. Any revision to accounting estimates is recognised prospectively in current and future periods.

1.3 Fixed assets

Tangible assets

Tangible fixed assets are stated at cost of acquisition less accumulated depreciation and any provision for impairment. Cost includes freight, duties, taxes (other than those recoverable from tax authorities) and other expenses directly attributable to the acquisition/ construction and installation of the fixed assets for bringing the asset to its working condition for its intended use. Cost incurred on fixed assets not ready for their intended use is disclosed under capital work-in-progress. Capital work-in-progress includes estimates of work completed, as certified by the management.

1 Summary of Significant Accounting Policies (Continued)

1.4 Depreciation/ amortisation

MAT credit entitlement is reviewed as at each Balance sheet date and written down to the extent there is no longer convincing evidence that the Company will pay normal income tax during the specified period.

Deferred tax

Deferred tax liability or asset is recognised for timing differences between the profits or losses offered for income taxes and profits/losses as per the financial statements. Deferred tax assets and liabilities and the corresponding deferred tax credit or charge are measured using the tax rates and tax laws that have been enacted or substantively enacted as at the Balance sheet date.

Due to lack of virtual certainty no deferred tax asset has not been recognized.

1.10 Provisions and contingencies

A provision is made when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Provisions are reviewed at each Balance sheet date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources would be required to settle the obligation, the provision is reversed.
