## REPORT OF THE BOARD OF DIRECTORS

The Board of Directors presents their report and audited financial statements of the Company for the year ended 31 March 2020.

### Incorporation

**Mukta A2 Multiplex S.P.C., (the "Company")** was incorporated in the Kingdom of Bahrain as a Single Person Company with the Ministry of Industry, Commerce & Tourism under the commercial registration number 99524 - 01 obtained on 17 May 2016. The Company has 5 more branches under the commercial registration numbers 99524 - 02, 03, 04 and 05 obtained on 01 September 2016 and 99524 - 06 obtained on 05 September 2016. Its registered office is Flat No. 423, Building No. 1013, Road No. 2417, Block No. 324, Manama, Kingdom of Bahrain.

### Principal activities

The Company is engaged in the business of motion picture projection activities and food and beverage service activities.

### Review of current position, future developments and significant risks

The Company's development to date, financial performance and position are as presented in the financial statements.

The most significant risks faced by the Company and the steps taken to manage these risks, are described in note No.6 of the financial statements.

### Financial performance

The Company's financial performance for the year is set out on page 7.

### Share capital

The share capital of the Company consists of 500 shares of BHD 100/- each.

### Events after reporting period

On 11 March 2020, the World Health Organization declared the outbreak of the coronavirus (COVID-19) as a global pandemic. As a result, economic uncertainties have arisen, and consumer spending has reduced. The COVID-19 outbreak in the Kingdom of Bahrain has resulted in reduced customer traffic, temporary reduction of operating hours for stores and temporary store closures as a government mandate. Whilst these events have had a limited impact on the Company's operations to date, these will have an increased implication on the Company's results of operations if the weakened economic environment continues. Given the uncertainty related to the duration and effect of this pandemic, the impact on the Company's financial statements cannot be currently estimated.

Except for the above, there were no other material events after the reporting period, which have a bearing on the understanding of the financial statements.

### Board of directors

The members of the Board of Directors as at 31 March 2020 and the Company profile are shown on page 1. All directors presently member of the Board continue in office. There were no significant changes in the assignment of responsibilities of the Board of Directors.

### Independent Auditors

The independent auditors, Moore Stephens, have expressed their willingness to continue in office and a resolution giving authority to the Board of Directors to fix their remuneration will be proposed at the Annual General Meeting.

By order of the Board of Directors,

  
**Akshay Vashdev Bajaj**  
(Director)

Manama,  
Kingdom of Bahrain, 10 May 2020

## INDEPENDENT AUDITORS' REPORT

### To the Shareholder of Mukta A2 Multiplex S.P.C.

#### Opinion

We have audited the accompanying financial statements of **Mukta A2 Multiplex S.P.C. ("the Company")**, which comprise the statement of financial position as at 31 March 2020 and the statement of profit or loss and other comprehensive income, statement of changes in equity and the statement of cash flows for the year then ended, and notes to the financial statements, including significant accounting policies set out on pages 6 to 26.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at 31 March 2020 and its financial performance, changes in equity and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

#### Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Emphasis of Matter

We draw attention to note no. 4 to the notes to the financial statements which indicates that during the year ended 31 March 2020, the Company has incurred a loss of BHD. 280,701/- and the accumulated losses as on 31 March 2020 was BHD. 909,248/- (31 March 2019: BHD. 628,547/-). Accordingly, there is a deficit of BHD. 857,105/- (31 March 2019: BHD. 576,404/-) in the shareholders' equity. Further, as on 31 March 2020 the Company's current liabilities exceeded its current assets by BHD. 466,080/- (31 March 2019: BHD. 391,947/-). These conditions indicate the existence of a material uncertainty which may cast significant doubt about the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

#### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

#### Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards, the requirements of the Bahrain Commercial Companies Law and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

(continued to page 4)

## **INDEPENDENT AUDITORS' REPORT (continued...)**

### **To the Shareholder of Mukta A2 Multiplex S.P.C.**

#### **Responsibilities of Management and Those Charged with Governance for the Financial Statements (continued...)**

Those charged with governance are responsible for overseeing the Company's financial reporting process.

#### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

## INDEPENDENT AUDITORS' REPORT (continued...)

### To the Shareholder of Mukta A2 Multiplex S.P.C.

#### Report on Other Legal Requirements

In accordance with the requirements of the Bahrain Commercial Companies Law (issued on June 20, 2001), we report that,

- 1) Proper books of account have been kept by the Company and the financial statements are in agreement therewith.
- 2) We have obtained all the information and explanations we considered necessary for the purposes of our audit and we are not aware of any violations of the Bahrain Commercial Companies Law, that might have had a material adverse effect on the business of the Company or on its financial position except that the equity of the Company shows a deficit of BHD. 857,105/- (31 March 2019: BHD. 576,404/-) on account of accumulated losses amounting to BHD. 909,248/- (31 March 2019: BHD. 628,547/-). In order to maintain the Company's registered share capital and reserve, as on 31 March 2020 the shareholder needs to inject additional funds amounting to BHD.909,248/-.
- 3) The information given in the report of the Board of Directors on page 2 is consistent with the financial statements.

#### Report on Anti-Money Laundering Compliance

To the best of our knowledge, information and explanations provided to us, we report that:

- 1) The Company holds sufficient measures and internal control systems and procedures relevant to verifying the identity of its customers.
- 2) The company has not identified any suspicious transactions during the year ended 31 March 2020.
- 3) The Company has no relationship of any kind with any individuals or organisations listed in the United Nations Security Council Resolution or Domestic list.
- 4) As at the financial year ended 31 March 2020, we are not aware of any violations to the Ministerial order (173) of 2017 regarding the concerning obligations related to the procedures of the prohibition of and combating money laundering and terrorism finance in the business of the persons registered in the commercial register and the audit registry in the Kingdom of Bahrain.

**MUKTA A2 MULTIPLEX S.P.C.****NOTES TO THE FINANCIAL STATEMENTS**

Year ended 31 March 2020

**1. Incorporation and principal activities**

**Mukta A2 Multiplex S.P.C.**, (the "Company") was incorporated in the Kingdom of Bahrain as a Single Person Company with the Ministry of Industry, Commerce & Tourism under the commercial registration number 99524 - 01 obtained on 17 May 2016. The Company has 5 more branches under the commercial registration numbers 99524 - 02, 03, 04 and 05 obtained on 01 September 2016 and 99524 - 06 obtained on 05 September 2016. Its registered office is Flat No. 423, Building No. 1013, Road No. 2417, Block No. 324, Manama, Kingdom of Bahrain.

**Principal activities**

The Company is engaged in the business of motion picture projection activities and food and beverage service activities.

**2. Adoption of new and revised International Financial Reporting Standards****New and amended standards adopted by the Company**

The Company has adopted the following applicable new and amended IFRSs as of 1 January 2019:

- a. IFRS 16, 'Leases' is effective for annual periods beginning on or after 1 January 2019. The scope of IFRS 16 includes leases of all assets, with certain exceptions. IFRS 16 requires lessees to account for all leases under a single on-balance sheet model in a similar way to finance leases under IAS 17. The standard includes two recognition exemptions for lessees – leases of 'low-value' assets and short-term leases (i.e., leases with a lease term of 12 months or less). At the commencement date of a lease, a lessee will recognise a liability to make lease payments and an asset representing the right to use the underlying asset during the lease term. Lessees will be required to separately recognise the interest expense on the lease liability and the depreciation expense on the right-of-use asset. Lessor accounting is substantially unchanged from accounting under IAS 17. A lessee can choose to apply the standard using either a full retrospective or a modified retrospective transition approach. The standard's transition provisions permit certain reliefs.
- b. Amendments to IFRS 9, 'Prepayment Features with Negative Compensation' enable entities to measure certain prepayable financial assets with negative compensation at amortised cost. These assets, which include some loan and debt securities, would otherwise have to be measured at fair value through profit or loss. To qualify for amortised cost measurement, the negative compensation must be 'reasonable compensation for early termination of the contract' and the asset must be held within a 'held to collect' business model.
- c. Amendments to IAS 19, 'Employee Benefits' clarify the accounting for defined benefit plan amendments, curtailments and settlements.
- d. Annual Improvements to IFRS Standards (2015-2017) Cycle: IAS 23 – clarified that if a specific borrowing remains outstanding after the related qualifying asset is ready for its intended use or sale, it becomes part of general borrowings.

The management believes that the adoption of the above and other amendments effective for the current accounting period has not had any material impact on the recognition, measurement, presentation and disclosure of items in the financial statements.

**Amendments to existing standards that are not yet effective and have not been adopted early by the Company**

The following amendments to existing standards that are applicable to the Company have been published and are mandatory for accounting periods of the Company beginning after 1 January 2019, but which have not been adopted early by the Company:

**MUKTA A2 MULTIPLEX S.P.C.****NOTES TO THE FINANCIAL STATEMENTS**

Year ended 31 March 2020

**2. Adoption of new and revised International Financial Reporting Standards (continued...)****Amendments to existing standards that are not yet effective and have not been adopted early by the Company (continued...)**

Amendments to IAS 1, "Presentation of Financial Statements" and IAS 8, "Accounting Policies, Changes in Accounting Estimates and Errors" clarify the definition of 'material' across the standards. The new definition states that, 'information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity.' The amendments clarify that materiality will depend on the nature or magnitude of information, or both. An entity will need to assess whether the information, either individually or in combination with other information, is material in the context of the financial statements. The amendments are effective for annual periods commencing on or after 1 January 2020.

The management believes that the adoption of the above amendments is not likely to have any material impact on the recognition, measurement, presentation and disclosure of items in the financial statements for future periods.

**3. Basis of preparation**

The financial statements have been prepared in accordance with International Financial Reporting Standards (IFRSs) issued by the International Accounting Standards Board (IASB) and interpretations issued by the International Financial Reporting Interpretations Committee (IFRIC) and the requirements of the Bahrain Commercial Companies Law (issued on June 20, 2001).

The financial statements have been drawn up from the accounting records of the company under the historical cost convention. The preparation of financial statements in conformity with IFRSs requires the use of certain critical accounting estimates and requires management to exercise its judgement in the process of applying the Company's accounting policies. It also requires the use of assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on management's best knowledge of current events and actions, actual results may ultimately differ from those estimates.

**4. Accounting policies**

The principal accounting policies adopted in the preparation of these financial statements are set out below. These policies have been consistently applied to the period presented in these financial statements.

**Going concern**

During the year ended 31 March 2020, the Company has incurred a loss of BHD. 280,701/- and the accumulated losses as on 31 March 2020 was BHD. 909,248/- (31 March 2019: BHD. 628,547/-). Accordingly, there is a deficit of BHD. 857,105/- (31 March 2019: BHD. 576,404/-) in the shareholders' equity. Further, as on 31 March 2020 the Company's current liabilities exceeded its current assets by BHD. 466,080/- (31 March 2019: BHD. 391,947/-). These conditions raise a material uncertainty as to the Company's ability to continue as a going concern. The Company is dependent upon the continuing financial support of its shareholders' without which there would be significant doubt about its ability to continue as a going concern as well as its ability to realize its assets and discharge its liabilities in the ordinary course of business.

**Revenue recognition**

Revenue from contracts with customers is recognised when control of goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services.

Revenue from sale of goods is recognised at a point in time when control of the asset is transferred to the customer, normally on delivery to the customer.

Delivery occurs when the goods have been shipped to the specific location, the risks of loss have been transferred to the customer, and either the customer has accepted the products in accordance with the contract, the acceptance provisions have lapsed, or the Company has objective evidence that all criteria for acceptance have been satisfied.

**MUKTA A2 MULTIPLEX S.P.C.****NOTES TO THE FINANCIAL STATEMENTS**

Year ended 31 March 2020

**4. Accounting policies (continued...)****Revenue recognition (continued...)**

The timing of revenue recognition, billings and collections may result in contract assets, trade receivables and contract liabilities.

Contract assets

The contract assets primarily relate to the Company's rights to consideration for work completed but not billed at the reporting date. Contract assets are initially recognised for revenue earned on work completed as receipt of consideration is conditional on completion of work done and acceptance by the customer, at which point the contract assets are reclassified to trade accounts receivables, which usually occurs when the Company issues an invoice to the customer.

Contract liabilities

The contract liabilities primarily relate to the advance consideration received from customers prior to meeting the revenue recognition criteria or when the amount of consideration received from customers exceed the amount of revenue recognised. Contract liabilities are recognised as revenue when the Company performs under the contract.

**Property, plant and equipment**

Property, plant and equipment are stated at historical cost less accumulated depreciation and any accumulated impairment losses.

Depreciation is calculated on the straight line method so as to write off the cost of each asset to its residual value over its estimated useful life. The major class of depreciable assets and the applicable rates are as follows:-

Leasehold improvements	5%
Machinery and equipments	10% - 20%
Furniture and fixtures	10% - 20%
Computer and accessories	20%
Concession equipments	20%
Motor vehicles	20%

The assets residual values and useful lives are reviewed, and adjusted if appropriate, at each end of the reporting period. Where the carrying amount of an asset is greater than its estimated recoverable amount, the asset is written down immediately to its recoverable amount.

Expenditure for repairs and maintenance of property, plant and equipment is charged to the income statement of the Period in which it is incurred. The cost of major renovations and other subsequent expenditure are included in the carrying amount of the asset when it is probable that future economic benefits in excess of the originally assessed standard of performance of the existing asset will flow to the Company. Major renovations are depreciated over the remaining useful life of the related asset.

The gain or loss arising on the disposal or retirement of an asset is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the statement of comprehensive income.

**Impairment of non financial assets**

At each reporting date, the Company reviews the carrying amounts of its non-financial assets, to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

## **MUKTA A2 MULTIPLEX S.P.C.**

### **NOTES TO THE FINANCIAL STATEMENTS**

Year ended 31 March 2020

#### **4. Accounting policies (continued...)**

##### **Impairment of non financial assets (continued...)**

If the recoverable amount of an asset or cash-generating unit is estimated to be less than its carrying amount, the carrying amount of the asset or cash-generating unit is reduced to its recoverable amount. An impairment loss is recognised as an expense immediately, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease. Where an impairment loss subsequently reverses (except for goodwill), the carrying amount of the asset or cash-generating unit is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset or cash-generating unit in prior years. A reversal of an impairment loss is recognised as income immediately, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

##### **Non-derivative financial instruments**

Financial assets and liabilities are recognized in the statement of financial position when the company becomes a party to the contractual provisions of the instruments.

###### *Receivable*

Receivables are initially measured at fair value, and are subsequently measured at amortised cost less impairment, if any. Allowances for estimated irrecoverable amounts are recognised in profit or loss when there is objective evidence that the asset is impaired.

###### *Cash and cash equivalents*

For purposes of statement of cash flows, cash and cash equivalents comprise of cash in hand and bank balances.

###### *Accounts payable and accruals*

Accounts payable are recognized for amounts to be paid in the future for goods purchased or services availed, whether billed by the supplier or not.

###### *Financial instruments – recognition, classification, measurement, derecognition and offsetting*

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

##### **(i) Recognition and initial measurement**

Trade receivables and debt securities issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

All regular way purchases or sales of financial assets are recognised or derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

All recognised financial assets are measured subsequently in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

##### **(ii) Classification and subsequent measurement**

###### *Financial assets: Classification*

On initial recognition, a financial asset is classified as measured at:

- amortised cost;
- Fair value through other comprehensive income (FVOCI) – debt investment;
- Fair value through other comprehensive income (FVOCI) – equity investment; or
- Fair value through profit or loss (FVTPL).

**MUKTA A2 MULTIPLEX S.P.C.****NOTES TO THE FINANCIAL STATEMENTS**

Year ended 31 March 2020

**4. Accounting policies (continued...)****Non-derivative financial instruments (continued...)****(ii) Classification and subsequent measurement (continued...)***Financial assets: Classification*

In order for a financial asset to be classified and measured at amortised cost or FVOCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as SPPI test and is performed at an instrument level.

The Company's business model for managing financial assets refer to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the assets, or both.

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as a FVTPL:

- the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI (designated as FVOCI – equity investment). This election is made on an investment-by-investment basis.

All financial assets not classified or measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

*Financial assets: Subsequent measurement and gains and losses*

- Financial assets at amortised cost

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in the statement of comprehensive income. Any gain or loss on derecognition is recognised in the statement of comprehensive income.

*Financial liabilities: Classification, subsequent measurement and gains and losses*

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in the statement of comprehensive income. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in the statement of comprehensive income. Any gain or loss on derecognition is also recognised in the statement of comprehensive income.

**MUKTA A2 MULTIPLEX S.P.C.****NOTES TO THE FINANCIAL STATEMENTS**

Year ended 31 March 2020

**4. Accounting policies (continued...)****Non-derivative financial instruments (continued...)****(iii) Derecognition**Financial assets

A financial asset (or where applicable a part of a financial asset or a part of group of similar financial assets) is derecognised either when:

- (i) the rights to receive cash flows from the asset have expired;
- (ii) the Company retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a 'pass through' arrangement; or
- (iii) the Company has transferred its rights to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Where the Company has transferred its right to receive cash flows from an asset and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognised to the extent of the Company's continuing involvement in the asset.

Financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in the statement of comprehensive income.

The Company's financial liabilities include trade and other payables, term loan, vehicle loan, due to related party and loan from related party.

**(iv) Offsetting**

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

**Impairment of financial assets**

A financial asset is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

The Company applies expected credit losses (ECL) model for measurement and recognition of loss allowance on the following:

- . Trade accounts receivable and contract assets;
- . Financial assets measured at amortised cost (other than trade receivables);

In case of trade receivables and contract assets, the Company follows a simplified approach wherein an amount equal to lifetime ECL is measured and recognised as loss allowance. ECL on trade receivables are calculated based on credit loss experience over the preceeding years, ageing of receivables, current market conditions and any reliable forward looking information. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime of ECL.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e. all cash shortfalls), discounted at the original effective interest rate. Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial asset. 12-month ECL are a portion of the lifetime ECL which result from default events that are possible within 12 months from the reporting date.

**MUKTA A2 MULTIPLEX S.P.C.****NOTES TO THE FINANCIAL STATEMENTS**Year ended 31 March 2020

---

**4. Accounting policies (continued...)****Impairment of financial assets (continued...)**

The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognised as an impairment gain or loss in the statement of comprehensive income.

**Provisions**

Provisions are recognised when the company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount can be made.

**Employees' benefits**

Employee's terminal benefits and entitlement to annual leave, holiday, air passage and other short term benefits are recognized as they accrue to the employees. The Company contributes to the pension scheme for Bahraini nationals administered by the Social Insurance Organization (SIO) in the Kingdom of Bahrain. The Company's share of contribution to this funded scheme which is defined contribution scheme under IAS-19-Employee benefits, is recognised as an expense in the statement of comprehensive income.

The expatriate employees of the Company are paid leaving indemnity in accordance with the provisions of the Bahrain Labour Law for private sector 2012, based on length of service and final salary. Provision for this, which is unfunded and represents a defined benefit plan under IAS-19 has been made by calculating the notional liability had all employees left at the reporting date. The provision is classified as a non-current liability in the statement of financial

**Inventories**

Inventories are stated at the lower of cost and net realisable value. Cost comprises direct materials and, where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition, excluding borrowing costs. Cost is calculated using the first-in, first-out ('FIFO') method. Net realisable value represents the estimated selling price less all estimated costs of completion and costs to be incurred in marketing, selling and distribution. Costs of inventories include the transfer from equity of any gains/losses on qualifying cash flow hedges relating to purchases of raw materials.

**Operating leases**

Operating lease payments are recognised in profit or loss on a straight-line basis over the lease term. The Company has cancellable lease agreement and the adoption of IFRS 16 will not have any impact on the financial statements.

**Foreign currency translation****1) Functional and presentation currency**

Items included in the company's financial statements are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The financial statements are presented in Bahraini Dinars (BHD), which is the company's functional and presentation currency.

**2) Transactions and balances**

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the statement of comprehensive income.

**MUKTA A2 MULTIPLEX S.P.C.****NOTES TO THE FINANCIAL STATEMENTS**

Year ended 31 March 2020

**4. Accounting policies (continued...)****Contingent liabilities and contingent assets**

A contingent liability is a possible obligation that arises from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. It can also be a present obligation arising from the past events that is not recognised because it is not probable that outflow of economic resources will be required, or the amount of obligation cannot be measured reliably.

Contingent liabilities are not recognised but are disclosed in the notes to the accounts. When a change in the probability of an outflow occurs so that outflow is probable, it will then be recognised as provision.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent assets are not recognised but are disclosed in the notes to the accounts when an inflow of economic benefits is probable. When an inflow is virtually certain, an asset is recognised.

**Non-current liabilities**

Non-current liabilities represent amounts that are due more than twelve months from the end of the reporting period.

**Comparatives**

Where necessary, comparative figures have been adjusted to conform to changes in presentation.

**5. Critical accounting estimates and judgements**

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Company makes judgements, estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

**a) Revenue from contracts with customers**

The application of revenue recognition policy in accordance with IFRS 15 has required management to make judgments in identifying performance obligations, determining transaction prices, allocating transaction prices to performance obligations, timing of satisfaction of performance obligations, estimating variable consideration and identifying financing components in contracts.

**b) Impairment of financial assets**

The loss allowances for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's past history, existing market conditions as well as forward-looking estimates at the end of each reporting period

**c) Provision for obsolete and slow-moving inventory**

The Company reviews its inventory records for evidence regarding the saleability of inventory and its net realizable value on disposal. The provision for obsolete and slow-moving inventory is based on management's past experience, taking into consideration the value of inventory as well as the movement and the level of stock of each category of inventory. The amount of provision is charged to profit or loss. The review of the net realisable value of the inventory is continuous and the methodology and assumptions used for estimating the provision for obsolete and slow-moving inventory are reviewed regularly and adjusted accordingly.

**d) Useful life and residual value of property, plant and equipment**

The Company reviews the useful life and residual value of property, plant and equipment at each reporting date to determine whether an adjustment to the useful life and residual value is required. The useful life and residual value is estimated based on similar assets of the industry, and future economic benefit expectations of the management.

**MUKTA A2 MULTIPLEX S.P.C.**
**NOTES TO THE FINANCIAL STATEMENTS**

Year ended 31 March 2020

**5. Critical accounting estimates and judgements (continued...)**
***e) Determining lease term***

In determining the lease term, management considers all facts and circumstances that create an economic incentive to exercise an extension option, or not exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not terminated).

The lease term is reassessed if an option is actually exercised (or not exercised) or the Company becomes obliged to exercise (or not exercise) it. The assessment of reasonable certainty is only revised if a significant event or a significant change in circumstances occurs, which affects this assessment, and that is within the control of the lessee.

**6. Financial instruments and risk management**

Financial assets and liabilities are recognized when the company becomes a party to the contractual provisions of the instruments. The table below set out the Company's classification of each class of financial assets and financial liabilities:

	<b>31/3/2020</b>	31/3/2019
	<b>BHD</b>	BHD
<b>Financial assets</b>		
Trade receivable	<b>10,927</b>	19,665
Deposits and other receivable (excluding prepayments)	<b>59,749</b>	64,603
Cash and bank balances	<b>17,236</b>	127,464
	<b>87,912</b>	211,732
<b>Financial liabilities</b>		
Trade payable	<b>66,606</b>	54,324
Accrued expenses and other payable	<b>447,463</b>	523,383
Vehicle loan	<b>3,937</b>	4,882
Term loan	<b>123,882</b>	158,071
Loan from related party	<b>534,468</b>	412,564
Due to related party	<b>155,342</b>	144,663
	<b>1,331,698</b>	1,297,887

**Financial risk factors**

The risk management policies employed by the Company to manage the financial risks are discussed below:

**6.1) Credit risk**

Credit risk arises when a failure by counter parties to discharge their obligations could reduce the amount of future cash inflows from financial assets on hand at the end of the reporting period. The Company has no significant concentration of credit risk. The Company has policies in place to ensure that sales of products and services are made to customers with an appropriate credit history and monitors on a continuous basis the ageing profile of its receivables. Cash balances are held with high credit quality financial institutions and the Company has policies to limit the amount of credit exposure to any financial institution.

The maximum exposure to credit risk at the end of the reporting period was:

	<b>31/3/2020</b>	31/3/2019
	<b>BHD</b>	BHD
Trade receivable	<b>10,927</b>	19,665
Deposits and other receivable (excluding prepayments)	<b>59,749</b>	64,603
Bank balances	<b>16,255</b>	122,797
	<b>86,931</b>	207,065

**MUKTA A2 MULTIPLEX S.P.C.**
**NOTES TO THE FINANCIAL STATEMENTS**

Year ended 31 March 2020

**6. Financial instruments and risk management (continued...)**
**6.1) Credit risk (continued...)**

The ageing of fee receivable at the reporting date was:

	<b>Gross</b>	<b>Impairment</b>	Gross	Impairment
	<b>31/3/2020</b>	<b>31/3/2020</b>	31/3/2019	31/3/2019
	<b>BHD</b>	<b>BHD</b>	<b>BHD</b>	<b>BHD</b>
0 - 30 days	<b>10,927</b>	-	19,665	-
31 - 60 days	-	-	-	-
More than 60 days	-	-	-	-
	<b>10,927</b>	-	19,665	-

**6.2) Market risk**

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rate and equity prices will affect the Company's income or the value of its holdings of financial instruments.

**6.3) Interest risk**

Interest rate risk is the risk that the value of financial instruments will fluctuate due to changes in market interest rates. The Company's income and operating cash flows are substantially independent of changes in market interest rates as the Company has no significant interest-bearing assets and liabilities. The term loan bears a fixed annual interest rate.

**6.4) Currency risk**

Currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates. Currency risk arises when future commercial transactions and recognised assets and liabilities are denominated in a currency that is not the Company's measurement currency. The Company does not have any significant currency risk as the Company's transactions are in Bahraini Dinars.

**6.5) Capital risk management**

The Company manages its capital to ensure that it will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance. The Company's overall strategy remains unchanged from last year.

**6.6) Liquidity risk**

Liquidity risk is the risk that an enterprise will encounter difficulty in raising funds to meet commitments associated with financial instruments. Liquidity risk may result from inability to sell a financial asset quickly at close to its fair value. Liquidity risk is managed by monitoring on a regular basis that sufficient funds are available, to meet any future commitments.

**6.7) Fair value**

Fair value is the amount for which an asset could be exchanged, or a liability settled between knowledgeable, willing parties in arm's length transaction. As the Company's financial instruments are compiled under the historical cost method, differences can arise between the book values under the historical method and fair estimates.

The fair value of the Company's financial instruments and assets and liabilities are not materially different from their carrying values.

Year ended 31 March 2020

**18. Related parties**

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions. These represent transactions with shareholders, directors and key management of the Company, and entities in which they have significant influence or control.

**Transactions with key management personnel**

Key management personnel of the company comprise the Board of Directors and key members of management having authority and responsibility for planning, directing and controlling the activities of the Company. Key management personnel are the Directors and compensation paid to them during the year is as follows:

**a) Directors' remuneration**

	<b>31/3/2020</b>	31/3/2019
	<b>BHD</b>	BHD

---

**NOTES TO THE FINANCIAL STATEMENTS**

Year ended 31 March 2020

**23. Contingent liability**

As at 31 March 2020, there were no contingent liabilities arising in the ordinary course of the business, which are expected to give rise to any loss.

**24. Events after reporting period**

On 11 March 2020, the World Health Organization declared the outbreak of the coronavirus (COVID-19) as a global pandemic. As a result, economic uncertainties have arisen, and consumer spending has reduced. The COVID-19 outbreak in the Kingdom of Bahrain has resulted in reduced customer traffic, temporary reduction of operating hours for stores and temporary store closures as a government mandate. Whilst these events have had a limited impact on the Company's operations to date, these will have an increased implication on the Company's results of operations if the weakened economic environment continues. Given the uncertainty related to the duration and effect of this pandemic, the impact on the Company's financial statements cannot be currently estimated.

Except for the above, there were no other events after the reporting period, which have a bearing on the understanding of the financial statements.
